Professional Summary

Data professional experienced in Collibra DQ/DGC, Databricks, SQL, and Power BI, specializing in end-to-end data quality monitoring. Expertise in managing and analyzing DQ violations, creating SQL views in Databricks, and building Power BI dashboards to deliver actionable data quality and governance insights.

Experience

Cognizant

March 2025 – Present

Programmer Analyst Trainee

On-Site

- Currently working on the **Bayer Pharma – DQ Product Supply project**, supporting enterprise data quality and data governance initiatives.
- Hands-on experience with **Collibra Data Quality (DQ)** and **Collibra Data Governance (DGC)** for monitoring, managing, and analyzing data quality rules and violations across product supply data.
- Utilize **Databricks** to develop and maintain **SQL views** for curated datasets used in analytics and reporting.
- Design and develop **Power BI dashboards** to visualize data quality metrics, governance insights, and operational KPIs for stakeholders.
- Collaborate with cross-functional teams to ensure data accuracy, consistency, and compliance within pharma product supply domains.

Vignan University

2024 - February 2025

Teaching Assistant

On-Site

- Assisting in the teaching of Data Structures, including preparing materials, conducting lab sessions, and helping students understand complex concepts.

PwC

February 2024 - June 2024

Launchpad Program Intern

Remote

- Participated in PwC's Launchpad Program, a 4-month virtual internship focused on IT fundamentals (Python, Java), SQL and Database Management Systems.

Skills

Data Governance & Quality: Collibra Data Quality (DQ), Collibra Data Governance (DGC), Data Quality Rules, Violation Analysis, Metadata Management

Data Engineering & Analytics: Databricks, SQL, Relational Databases (RDBMS), Data Modeling, Curated Datasets

Business Intelligence & Visualization: Power BI, DAX (Basic), Data Quality Dashboards, KPI Reporting

Programming & Scripting: Python, SQL

Tools & Platforms: SAP HANA, Git/GitHub, Informatica (PowerCenter, MDM – Basic)

Soft Skills: Problem Solving, Analytical Thinking, Communication, Stakeholder Collaboration, Adaptability

Certifications

Databricks Certified Data Engineer Associate: Certified by Databricks [Verify Credential]

Collibra Integration Engineer: Verified Learning Path Completion (Certificate No: LP23358)

Smart Interviews: Certified as Optimised coder

Certified for PET Exam and BEC Exam: Conducted by Cambridge University

Hands-on experience in **Internet of Things (IoT)**, Certified by NPTEL

Education

Vignan University	2021 - 2025
<i>Bachelor of Technology in Computer Science Engineering</i>	CGPA: 8.7 / 10.0
Sri Chaitanya Junior College	2019-2021
<i>Intermediate (MPC)</i>	CGPA: 8.7 / 10.0
Sri Chaitanya School	2018-2019
<i>Board of SSC</i>	CGPA: 9.7 / 10.0

Projects

Bayer Pharma – DQ Product Supply Project	Present
• Technologies: Collibra Data Quality (DQ), Collibra Data Governance (DGC), Databricks, SQL, Power BI • Role: Data Governance & Analytics Support • Worked on enterprise-level data quality monitoring and governance for pharma product supply data. • Managed and analyzed data quality rules and violations using Collibra DQ and DGC to ensure data consistency and compliance. • Created and maintained SQL views in Databricks for curated datasets used in analytics and reporting. • Developed Power BI dashboards to visualize data quality metrics, governance insights, and operational KPIs for stakeholders.	

Awards & Achievements

- Cognizant Cheers Award (2 Times):** Recognized by manager for **Valuable Impact to Client**, exceeding role expectations, directly addressing client needs, receiving positive client feedback, and taking ownership of cross-training team members.
- Client Appreciation – Bayer Pharma:** Received direct recognition from the Bayer client via email for successful migration and redesign of the **Data Quality Dashboard**, contributing to a stable, future-ready architecture processing **20M+ records daily** across Databricks, Collibra DQ, Collibra, and Power BI.
- Published Conference Paper (Main Author):** Research paper on **Data Mining Techniques** published at the ICAAIC Conference.
- Problem-Solving Recognition:** Awarded **Optimized Coder** badge by Smart Interviews Training; **2★ Coder on CodeChef** and solved **200+ problems on LeetCode**.
